

Privacy Policy

Last updated: March 11, 2026

Prompo (“Prompo”, “we”, “our”, or “us”) respects your privacy and is committed to protecting your information.

This Privacy Policy explains how information is handled when you use:

- The Prompo browser extension
- The Prompo website (<https://prompo.ai>)
- Related services, including subscription validation

Prompo is designed as a **privacy-first tool**, with user data remaining under the user's control.

1. Overview of Prompo’s Privacy Model

Prompo is designed to operate primarily using **local browser storage**.

In most cases:

- Your data **never leaves your computer**
- Prompo **does not store your prompts, chats, or AI results on external servers**
- Prompo **does not monitor or track your AI conversations**

This architecture is intentional and designed to protect user privacy.

2. Information Stored Locally

Prompo stores the following information **locally in your browser** using IndexedDB.

This data remains on your device unless you export it.

Projects

Saved links to AI platform project pages, including:

- title
- URL

- platform name
- category
- notes
- tags
- timestamps

Chats

Saved links to AI conversations including:

- title
- URL
- platform
- category
- notes
- tags
- timestamps

Prompts

Reusable prompt templates including:

- prompt title
- prompt text
- tags
- notes
- categories

Results

Saved AI responses including:

- response text
- source platform
- source URL
- associated prompt reference (optional)
- notes and tags

Categories

User-defined organizational folders including nested category structures.

Settings

User preferences such as:

- interface language
- theme
- enabled platforms
- extension behavior preferences

License Status

If you use the Professional Tier, the extension may store:

- license key
- license status
- last validation timestamp

This information is stored locally to reduce network requests.

3. Information Sent Over the Internet

Prompo **minimizes network communication**.

The extension only communicates externally in the following situations.

License Validation

Professional subscriptions require validation through a licensing provider.

When validating a license, Prompo may transmit:

- license key
- extension version
- validation timestamp

License validation is performed using the LemonSqueezy licensing API.

Prompo does **not transmit your prompts, chats, or saved AI responses** during license validation.

4. Data Prompo Does NOT Collect

Prompo intentionally does **not collect** the following:

- Your prompts
- Your AI conversations
- Your saved AI results
- Browsing history
- Personal documents
- Analytics or telemetry data
- Usage tracking data
- Advertising identifiers

Prompo does **not sell personal data**.

Prompo does **not build advertising profiles**.

5. Interaction With AI Platforms

Prompo operates on third-party AI platforms such as:

- ChatGPT
- Claude
- Gemini
- CoPilot
- DeepSeek
- Perplexity
- Grok

Prompo interacts with these platforms by injecting interface elements into their webpages (such as "Save Prompt" or "Save Result" buttons).

Prompo does **not intercept, modify, or transmit your AI conversations to external servers**.

However, your interactions with those platforms remain subject to their own privacy policies.

6. Browser Permissions

Prompo requests only the permissions required to operate its features.

These permissions may include:

Access to Supported AI Platforms

Prompo requires access to AI platform pages in order to:

- detect prompts
- detect responses
- inject save buttons
- insert prompts into input fields

Storage Permission

Used to store user data locally in IndexedDB.

Clipboard Access

Used to copy prompts or results when the user chooses to copy them.

Prompo does not access unrelated websites.

7. Data Export and Import

Prompo allows users to export their stored data.

Exported data may include:

- projects
- chats
- prompts
- results
- categories
- tags
- settings

Export files are generated in **JSON format** and saved locally to the user's device.

Users are responsible for securely storing exported files.

8. Data Retention

Because Prompo stores data locally:

- Data remains in your browser until you delete it

- Uninstalling the extension may remove stored data, depending on the browser behavior

Users can also:

- Delete individual items
- Clear all stored data from settings
- Export and remove data manually

Prompo does not maintain centralized storage of user content.

9. Security

Prompo is designed to reduce privacy risks by storing user data locally rather than in centralized cloud servers.

However, users should be aware:

- Browser storage may be accessible to other extensions with sufficient permissions
- Exported files may contain sensitive information

Users should avoid storing highly confidential information in any browser extension.

10. Children's Privacy

Prompo is not directed to children under 13.

Prompo does not knowingly collect personal information from children.

If such information is discovered, it will be removed.

11. International Users

Prompo may be used worldwide.

Users are responsible for ensuring that their use of Prompo complies with local laws regarding data handling and AI services.

12. Changes to This Privacy Policy

Prompo may update this Privacy Policy from time to time.

Updates will be published on the website with an updated "Last updated" date.

Continued use of Prompo after changes means you accept the updated policy.
